

LETTER OF RECOMMENDATION

To Whom It May Concern,

On behalf of the Iran Youth Science & Technology Center (IYSTC), I am pleased to recommend Ms. Sepideh Abedi for her outstanding contributions to agricultural innovation, research, and technology development.

Ms. Abedi has collaborated with IYSTC through the development and international advancement of the **Plant Response Diagnosis System (PRDS)** project. During this collaboration, she demonstrated strong expertise in horticultural sciences, plant physiology, agricultural consulting, and the application of scientific knowledge to real-world agricultural challenges.

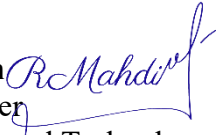

As the main contributor to the PRDS innovation project, Ms. Abedi played an important role in developing an agricultural technology concept focused on plant stress diagnosis and smart agriculture applications. The project progressed through international innovation pathways, including intellectual property activities such as an Australian provisional patent application and an international PCT application.

Her scientific and innovative achievements have received international recognition, including the **IFIA INV Members Gold Medal** and the **WICO 2026 Gold Medal** for the PRDS project. She has also obtained the **IFIA Innovation Standard (IIS)** credential and international membership from the International Federation of Inventors' Associations (IFIA).

Throughout our collaboration, Ms. Abedi has demonstrated professionalism, research commitment, and the ability to connect academic knowledge with practical agricultural solutions. Her expertise in horticulture, sustainable crop production, smart agriculture, and innovation development positions her as a promising professional in the field of agricultural technology.

I confidently recommend Ms. Sepideh Abedi for research collaborations, academic opportunities, innovation programs, and professional engagements where her expertise and dedication can contribute meaningful value.

Sincerely,

Mahdi Rashidyjahan 
Chief Executive Officer
Iranian Youth Science and Technology Center (IYSTC)
